OUR GUIDE FOR YOUR CHILD'S TREATMENT UNDER GENERAL ANAESTHETIC

TREATMENT PROPOSAL IS VALID FOR 3 MONTHS

This booklet has been designed to give you step by step instructions to help you work through your child's dental treatment proposal and how to confirm your child's treatment under general anaesthetic with Kiddies Dental Care.

After your appointment, you were given a tooth chart indicating which teeth require treatment and the consent forms to proceed with this treatment.

PLEASE WATCH OUT FOR AN EMAIL FROM US CONTAINING YOUR CHILD'S TREATMENT PROPOSAL

This email will include our proposal to provide dental treatment for your child under general anaesthetic, and will also give you links to additional information regarding your child's dental treatment.

For children undergoing extensive or complex dental procedures, the application of general anaesthetic (GA) is highly recommended as it will ensure a smooth dental operation and maximum comfort for the patients. Descriptions of the indicative charges are provided in this documentation for your consideration.
